## Tecka, Chubut Patagonia Argentina.

Dear friends:

With great pleasure we like to share with you the picture of the first step completion of “**Tecka River Protection Program**”. This stage was reached from your generous contribution when you acquired our *P.A. Santiago* Fly boxes on **Tecka Lodge** during 2014 season.

This undertaking has been favored by the graciousness of Mr. Federico & Mrs. Adela Ochoa, to rely on funding and allow us to offer them at its exclusive Estancia

Garbage sorters installed in the Rio Tecka are already a reality, and are part of the river care program. With your generous contribution we have not only financed the construction and installation thereof, but also

collaborate with the costs of weekly refuse collection.

We would also like to let you know that soon we will send you our 2015 challenges, which involves supporting a local public school.

Wishing you a happy 2015. Best Regards.
